REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance:

Any comments considered necessary by applicant must be submitted no later than the Payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

The references of record do not anticipate the claimed inventions. In addition, the references alone or further in view of each other do not suggest or motivate one of ordinary skilled in the art to employ the limitations of claim 1 for oxidizing the primary alcohols. The instant specification shows unexpected improved results for the reactants as well as unobvious process step for the reaction medium for the substrate over the art of record. In addition, consideration of the instant claims in light of the Supreme Court's recent decision in *KSR International Co. v. Teleflex Inc* (TFX) ., 82 USPQ2d 1385 (2007) based on the reasoning may still include the established Court of Appeals for the Federal Circuit standard that a claimed invention may be obvious if the examiner identifies a prior art teaching, suggestion, or motivation (TSM) to make it. However, the Guidelines explain that there is no requirement that patent examiners use the TSM approach in order to make a proper obviousness rejection. Furthermore, the Guidelines point out that even if the TSM approach cannot be applied to a claimed invention that invention may still be found obvious which this Examiner has found no suggestion for the claimed concentration of the medium and the showing in the specification in Table 4 clearly demonstrates patentability for the specific oxidizing agent absent art which is anticipatory containing the specific oxidizing agent containing the concentration of the medium and additional agents as required.

Thus, the instantly claimed processes are allowed over the prior art references.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to HERBERT J. LILLING whose telephone number is 571-272-0918. The examiner can normally be reached on WORK AT HOME MAXIFLEX.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, JON WEBER can be reached on 571-272-0925. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
